## ALUMINUM TRAILERS

\* LIGHT-WEIGHT

\* RUST-FREE

*Sno-Tow Trailers*

by

# TRAILEX

\* DOUBLE UTILITY

Tows behind your car  
Tows behind your snow vehicle

\* EASIER TO HANDLE AND MAINTAIN

Light-weight aluminum reduces the trailer weight by one-third, to one-half that of comparable steel trailers. Anodized aluminum — never rusts, nor corrodes. Provides years of maintenance free service.

The TRAILEX trailer can be easily leaned on end to store while unit is not in use. Sliding "T" bolt — permits easy attachment of: racks, tops, seats, etc.
